

Teaching Science: 'Making learning relevant inside and outside the classroom'

This one day primary science education learning and networking day will provide opportunities for you to engage with other teachers about ways of making your science education programme more relevant to learners.

Along with a range of presentations, there will be a focus on climate change education, incorporating Mātauranga Māori into your programme and navigating the Health and Safety Guidelines so that you can take learners beyond your classroom.

Keynote Speakers: Dr Sally Carson from the NZ Marine Studies Centre and Sian Carvell - Director of Future Curious.

PPTA Subsidy available—Click [here](#) for details
