

Gut Microbiome Transfer Survey

Are you over 16? Would you like to participate in a short online survey and contribute to advancing research into the gut microbiome?

We are researchers from the University of Auckland running an anonymous survey to get your views on a treatment called 'Gut Microbiome Transfer'. It will take around 5 mins to complete. You can take part even if you have not heard of this treatment before.

Scan the QR code to complete the survey or to get more information.

You can also email the research team at gutbugs@auckland.ac.nz.

Approved by the University of Auckland Human Participants Ethics Committee in August 2022 for three years. Reference number UAHPEC24594.

This study is funded by a philanthropic grant from the Rockfield Trust.
