

VICTORIA UNIVERSITY OF
WELLINGTON
TE HERENGA WAKA

DYNAMIC SCIENCE WELLINGTON

19–20 JANUARY 2023

9.30 AM–4.30 PM

Dynamic Science Wellington is a free two-day experience for Year 12 students with a passion for chemistry or physics. It's a chance for a hands-on exploration of cutting edge research with some of New Zealand's leading scientists at Te Herenga Waka—Victoria University of Wellington.

Day one is a choice of practical physics or chemistry activities, with a tour of the different research labs. Day two will consist of a visit to local industries, and a fun and science-inspired group competition. As spaces are limited, participants will be hand-selected from the responses to the online sign-up form. Give us your most inspired, creative, and out-there answers to the registration questions for the best chance at being selected!

Food will be provided. Participants will need to arrange travel to and from Kelburn campus.

For inquiries contact: courtney.davy@vuw.ac.nz or ahmed.hemady@vuw.ac.nz
